School Culture and Climate Summary (Continued)

High School Culture and Climate

Santa Maria High School has identified the characteristics of district culture and climate through an analysis of the discipline program, character education, classroom management, student attendance and parental involvement. An analysis of student discipline indicates a slight decrease in the number of DAEP placements from 2.3% to 2.2% for ALL students. The majority of the placements for In-School Suspension, Out-of-School Suspension and the DAEP were for violating the student code of conduct.

The attendance rate for Santa Maria ISD for ALL students indicated a slight increase from 95.0% to 95.8% and Hispanic from 95.0% to 95.8%, Special education indicates an increased from 92.4% to 94.4%. Economically Disadvantaged increase from 95.0% to 96.0% and a slight decrease from 96.2% to 95.7% for ELLs. The attendance rate reflects data from the 2012-13 and 2013-14 school years. This year, Santa Maria High School will implement the School-wide Positive Behavior Intervention and Support system to address discipline issues for all students that includes positive interventions and supports. The district also provides three truancy officers, one at each campus. In addition, the district provides New Generation System (NGS) Specialist/Recruiter and a district-wide parental liaison for migrant students

Staff Quality, Recruitment and Retention Summary

Staff Quality, Recruitment, and Retention

High School Staff Quality, Recruitment, and Retention

Santa Maria ISD values hiring and retaining talented and effective personnel. Having 100% of teachers highly qualified and certified is a high priority. Providing high-quality, focused professional development is also important in SMISD. By narrowing the focus, the professional development is more effective. It strengthens the efforts of campus and district administrators and teachers in implementing, monitoring, and evaluating programs. Topics are determined through an analysis of both campus and district data.

August 2014 professional development was designed based upon needs determined at the end of the 2013-2014 school year. Those topics included: Teacher Orientation, Data Analysis, Accountability, Inclusionary Practices, ELPS instruction, Reading Strategies and Planning from the Instructional Focus Document.

SMISD maintains highly qualified personnel and provides current information to district and campus administrators and the public as required by NCLB. The District actively recruits quality personnel by advertising SMISD website, Region 1 ESC website, and listings at the Human Resources Office, campuses, and participating in job fairs at Region 1 and state universities, depending on needs of the district. Additionally, communication is maintained by providing lists of HQ teachers. Based on need, the District recruits bilingual certified elementary teachers to allow for Master Schedule flexibility to accommodate student growth.

Each year, the district studies and proposes revisions to the instructional stipends including those stipends that support the needs of our district in the areas of special population (certified Sp. Ed., Advanced Academics [GT] and Bilingual). The district will continue to provide stipends to teachers who acquire a Master's degree in the field they teach, and to teachers in the secondary science, math, and dual enrollment courses. The District maintains its competitiveness with neighboring school districts.

The District continues its current employee recognition programs: Teacher of the Year, Retirement, Service Awards, and Board Recognitions.

Staff Quality, Recruitment, and Retention Strengths

High School Curriculum, Instruction, and Assessment

Santa Maria High School utilizes the South Texas Curriculum Project (STCP) in conjunction with the TEKS Resource System for its curriculum which is implemented in ELAR, SLAR, Math, Science, and Social Studies in grades 9-12. Campus administrators will be monitoring the implementation of STCP by conducting classroom observations and facilitating professional learning communities.

The campus utilizes Curriculum-Based Assessments, in tested grades and content areas, developed by the Office of Curriculum and Instruction and Campus Leaders to monitor student progress toward reaching State Standards. Assessments will be administered each six weeks at 9th through 12th grades. The campus has implemented Three-Week Check Points for all grades levels in the areas of Mathematics, ELAR and Science. In addition to the district curriculum, Compass Learning is utilized by secondary campuses for credit recovery and accrual purposes to allow students to stay on track for on time graduation. *iStation* is an online reading system which after an initial assessment, provides for a customized path for students to improve reading skills. State and local assessment data is disaggregated by teachers and administrators using the online data management for assessment and curriculum system (DMAC).

High School Context and Organization

Santa Maria High School is committed to improving the academic performance for all students in the areas of Reading, Writing, Mathematics, Science and Social Studies with a focus on improving student performance for LEP and Special Education students. The Campus Site-Based Team (SBDM) composed of campus-wide, elected professional staff, parents, community member and business representatives, advise the Board or its designee in establishing and reviewing the District's educational goals, objectives, and staff development needs. For 2015-2016, the Campus SBDM proposed staff development waiver days on September 21st, January 4th, and February 9th.

The Campus SBDM utilizes DMAC data, ACT, Accountability Reports, dropout data, retention rates, graduation rates, TELPAS, PEIMS discipline and attendance reports to determine goals and objectives for the campus. The district engages in the Texas Accountability Intervention System (TAIS) intervention activities through the Performance-Based Monitoring Analysis System (PBMAS), which is composed of campus-wide staff and parents. Intervention activities include a data analysis and needs assessment to determine the needs and goals of the campus which are addressed through the Critical Success Factors (CSFs) and the Nine Principals.

The campus will monitor quarterly the progress of the campus improvement plan through principal and coordinator meetings and the campus SBDM.

Technology

High School Technology

Education, like many other fields, is rapidly transformed by new technologies. Smart personal devices, easy to navigate databases and ubiquitous connectivity are just a few of the relentless forces redefining the classroom and reshaping how students learn. The Texas Education Agency set forth the Technology Applications TEKS, a set of skills and guidelines, to assist schools in creating curriculum requirements for every course.

Santa Maria High School will follow the established four core goals to support the District mission:

- Provide technology-based solutions which promote and support the instructional needs of teachers and the learning needs of students.
- Provide technology-based professional development for staff to enhance and increase effective use of technology tools.
- Provide technology-based solutions and support to promote effective administrative use.
- Establish and maintain a technology infrastructure that promotes communication and learning for students, staff and the community.

To meet the above goals, SMHS uses innovative procedures and methods to integrate technology into classrooms' daily instruction. A classroom equipment standard is also followed district-wide. The goal for Santa Maris high school is for each core content classroom to be equipped with an LCD projector, a high resolution visualizer (document camera), three desktop computers, a workgroup laser printer and high speed access to the Internet. All high school classrooms are further enhanced through the inclusion of a tablet set consisting of (at least) 25 iPads and a lockable safe for storage. SMHS also provides scheduled and just-in-time staff development to campuses and departments.

As part of its commitment for enhancement of student and staff achievement, a technology plan is maintained and updated yearly. An annual review ensures an accurate analysis of district needs. Components of this review include:

- comprehensive online (technology related) instructional needs assessment for teachers (also based on Campus Improvement Plan feedback),
- a yearly equipment inventory,
- completion of the TEA Star Chart by all district teachers.

Technology Strengths

- Providing filtered high speed internet services to students, staff and visitors district wide using enterprise Cisco managed access points
- Every core content area classroom contains a media system comprised of: high lumen LCD projector (wall or ceiling mount), document camera/visualizer, modern desktop computers, high speed workgroup and printer.
- Hired a district level instructional technology coach to provide small group and individualized training and mentoring for teachers and staff.
- District users provided with web based enterprise level Gmail and Google Apps accounts with real time collaboration and document sharing through the use of Google Drive.
- SMISD provides 40 mbps bandwidth (to Internet) for instructional and administrative use.
- Public information infrastructure include: Family access (provides parent access to student grades, attendance, etc.), school to parent messaging with use of Bright
